

Head of the Civil Shipping Division (f/m/d)

Turbo-Technik is a family-owned company that offers exciting tasks and challenges for trainees, students and graduates as well as for experienced specialists and managers. We challenge, encourage and recognise performance. As a team, we support each other for everyone's success and are a "hands-on" family. We stand for flat hierarchies and short decision-making processes.

In addition to our locations in Rostock and Hamburg, our main headquarters and workshops are located in Wilhelmshaven, Germany.

Your task

- Responsibility for the performance of the civil shipping department
- Compliance with and monitoring of target values and key metrics
- Lead team planning and coordination of complex maintenance, repair and new construction projects in the areas of machine, steel and pipeline construction, as well as drive technology
- Development of strategies for customer acquisition taking into account our corporate strategies

Your Benefit

- A fair and open corporate culture in a professional and international environment
- A young, innovative and motivated team and short decision-making processes
- Interesting and challenging tasks in a dynamically growing company
- The opportunity to actively shape our further growth with commitment and responsibility
- Appropriate remuneration (IG Metall), 30 days' vacation, vacation and Christmas bonuses and a time-off account

- Further development and inclusion of new target groups, products, markets and sales channels, taking corporate strategies into account
- Market observation and analyses
- Communication with and reporting to company and operational management
- Preparation and testing of technical specifications and assembly concepts
- Preparation of cost calculations and offers
- Construction site support
- Obtaining and evaluating external deliveries and services
- Opportunities for professional and personal development

Your profile

- Ship operations or mechanical engineer or training comparable with professional experience in management
- Excellent communication and teamwork skills
- Customer-oriented service mentality
- Confident demeanour, with negotiating proficiency and the necessary assertiveness
- Commitment and willingness to travel
- In-depth knowledge of the industry-specific specialist certifications and the general principles of technology
- Fluent written and spoken English

About TURBO-TECHNIK

Founded in 1967 in Wilhelmshaven, Germany, the family-owned company Turbo-Technik originated as a ship repair company for voyage and port repairs of seagoing vessels and today specialises in the repair of merchant vessels, from worldwide voyage and port repairs to conversions, after-sales services for large ship equipment as well as spare parts supply. In addition, we carry out repairs and maintenance of naval vessels as well as technical upgrades and modernisations of all kinds of ships worldwide. Another strong market segment

of Turbo-Technik is the service, repair and construction of industrial, petrochemical and regenerative energy plants. In the industrial sector, we also offer engineering services, the construction of modules as well as steel construction and contract manufacturing.
