

Personaldisponent (m/w/d)

Turbo-Technik is a family-owned company that offers exciting tasks and challenges for trainees, students and graduates as well as for experienced specialists and managers. We challenge, encourage and recognise performance. As a team, we support each other for everyone's success and are a "hands-on" family. We stand for flat hierarchies and short decision-making processes.

In addition to our locations in Rostock and Hamburg, our main headquarters and workshops are located in Wilhelmshaven, Germany.

Your task

- Personnel planning and scheduling for national and international projects
- Close cooperation with the property and project managers
- Assembling repair teams, taking project-specific requirements into account
- Informing service employees about upcoming installation assignments
- Procurement and coordination of external personnel during workload peaks

Your Benefit

- A fair and open corporate culture in a professional and international environment
- A young, innovative and motivated team and short decision-making processes
- Interesting and challenging tasks in a dynamically growing company
- The opportunity to actively shape our further growth with commitment and responsibility
- Appropriate remuneration (IG Metall), 30 days' vacation, vacation and Christmas bonuses and a time-off account

Your profile

- Successfully completed commercial or technical vocational training or studies
- Professional experience in the scheduling of employees
- Independent, careful and reliable way of working
- Good written and spoken German and English skills
- Strong communication and assertiveness skills
- Confident handling of MS Office

- Opportunities for professional and personal development

Challenge accepted?

Then we look forward to getting to know you.

About TURBO-TECHNIK

Founded in 1967 in Wilhelmshaven, Germany, the family-owned company Turbo-Technik originated as a ship repair company for voyage and port repairs of seagoing vessels and today specialises in the repair of merchant vessels, from worldwide voyage and port repairs to conversions, after-sales services for large ship equipment as well as spare parts supply. In addition, we carry out repairs and maintenance of naval vessels as well as technical upgrades and modernisations of all kinds of ships worldwide. Another strong market segment of Turbo-Technik is the service, repair and construction of industrial, petrochemical and regenerative energy plants. In the industrial sector, we also offer engineering services, the construction of modules as well as steel construction and contract manufacturing.
